Mowi ASA 'BBB+' long-term issuer rating affirmed with stable outlook

Nordic Credit Rating (NCR) has affirmed its 'BBB+' long-term issuer rating on Norway-based salmon farmer [Mowi ASA](#). The outlook is stable. At the same time, NCR affirmed its 'N2' short-term issuer rating and 'BBB+' long-term senior unsecured obligations issue rating, reflecting the flat debtor hierarchy.

Rating rationale

The affirmation reflects the company's moderate financial leverage as well as strong profitability and cash flow. We expect that the company's credit metrics will be normalised from 2026, after a temporary weakness in 2025, with net debt to EBITDA levels below 2x and funds from operations (FFO) to net debt above 40%. The rating is also underpinned by the company's strong market position as the world's largest salmon farmer and the only one with operations in all major global salmon farming regions. The rating also takes into account Mowi's fully vertically integrated operations, which help offset the impact of volatility in product and raw-material prices.

The rating is constrained by the seafood sector's historical earnings volatility due to unstable prices resulting from variable supply. It is also constrained by biological challenges, with the industry particularly affected by higher costs for sea lice treatment, which we expect will lead the sector to invest in new farming technology. These factors have also contributed to volatile EBITDA margins for Mowi in the past. In addition, the sector faces political risk due to its profitability and perceived environmental impact. This was exemplified by the Norwegian government's introduction of a 'resource rent' tax on aquaculture in 2023 and the proposed ban on open-net pen salmon farming in British Columbia.

Stable outlook

The stable outlook reflects our expectations that low salmon supply growth will support global prices over the next three years. We assume an annual average salmon price of around EUR 7.5/kg (Oslo) during this period, albeit with strong seasonality. In addition, we believe that Mowi will keep adverse biological issues under control and that the recent cost inflation is slowing. We also expect the company to maintain a moderate debt level, with FFO/net debt above 40% from 2026.

We could raise the rating to reflect the company's commitment to a moderate financial risk profile, with FFO to net debt above 60%, and a more stable supply leading to reduced price uncertainty and improved margin stability. We could lower the rating to reflect higher financial leverage leading to FFO to net debt below 40% over a protracted period. We could also lower the rating in line with a lower demand for Atlantic salmon or a persistent increase in biological issues such as disease and sea lice.

Type of credit rating:	Long-term issuer credit rating Short-term issuer credit rating Issue credit rating
Publication date:	The rating was first published on 26 Mar. 2024.
Office responsible for the credit rating:	Nordic Credit Rating AS (NCR), Oslo, Norway. NCR is a registered credit rating agency under Regulation (EC) No 1060/2009.
Primary analyst:	Geir Kristiansen, +4790784593, geir.kristiansen@nordiccreditrating.com
Rating committee chairperson responsible for approval of the credit rating:	Elisabeth Adebäck, +46700442775, elisabeth.adeback@nordiccreditrating.com
Were ESG factors a key driver behind the change to the credit rating or rating outlook?	No.
Methodology used when determining the credit rating:	NCR's Corporate Rating Methodology published on 8 May 2023 NCR's Rating Principles published on 14 Feb. 2024 NCR's Group and Government Support Rating Methodology published on 14 Feb. 2024 The methodology and principles documents provide analytical guidance to NCR's rating activities including but not limited to, assumptions, parameters, cash flow analysis, and stress-testing. NCR's methodologies and principles can be found on our website nordiccreditrating.com/governance/policies . The historical default rates of entities and securities rated by NCR will be viewed on the central platform (CEREP) of the European Securities and Markets Authority (ESMA) .
Materials used when determining the credit rating:	Annual- and quarterly reports of the rated entity, Bond prospectuses, Company presentations, External market reports, Meetings with management of the rated entity, Non-public information, Press reports/public information, Website of rated entity.
Potential conflicts of interest:	The rating is NCR's independent opinion of the rated entity's relative creditworthiness. The rating is solicited, i.e. it is prepared for a fee paid by the rated entity. At the time of analysis and publication neither NCR nor any of the analysts or persons involved in the rating process held any interest, ownership interest or securities in the rated entity. NCR does not have any direct or indirect shareholder with a holding of more than 5% of NCR's shares and votes. For further information, please refer to NCR's conflict of interest policy which is available on: https://nordiccreditrating.com/governance/policies
Additional information:	Prior to publication, the rating was disclosed to the rated entity. The issuer was given 24 hours (of which 8 business hours) to remark on factual errors and/or the inadvertent inclusion of confidential information, if applicable. The rating was not amended after the review by the issuer. No stress test was performed. Standard cash flow forecasting was performed. NCR's rating is an opinion regarding the relative creditworthiness of an entity or an instrument. It is not a prediction, guarantee or recommendation to buy, hold or sell securities. NCR assigns outlooks to issuer ratings to indicate where they could move in the near term, normally 12–18 months. Further information on the rating process, rating definitions and limitations is available on our website: nordiccreditrating.com/governance/policies .
Ancillary services provided:	No ancillary services have been provided in the last 12 months.
Regulations:	This rating was issued and disclosed under Regulation (EC) No 1060/2009.
